

Improving social presence for a payroll outsourcing firm

PAYROLL

Our client was a leading payroll outsourcing company and wanted to increase its engagement across social media through relevant digital banners and posters

Business Challenges

The client had a minimal social presence and wanted to intensify its efforts in reaching out to its target market, leveraging digital banners and posters across social media. The messaging across these banners needed to be in line with their core messaging and as per their brand guidelines. The client was looking for a significantly improved visual appeal across their social channels, based on this initiative.

Solution

- Based on the messaging theme and the branding guidelines, we created theme based image banners that could be posted to social media
- For every theme, a post bank with multiple options was created and based on discussions, post images as well as comments were finalized and approved
- Branding elements were included across all image banners used on social media
- Communication about the client's unique selling points became far more easier with a visual representation

Benefits

- Significantly improved metrics across their social channels
- Increased number of leads from their web channels
- Improved brand recall among prospect audience aided client engagement

“

In a short period of 3 months, we were able to ramp up our social media presence quite effectively. All through the engagement, we have been very happy with deliverables received from Xenia

”
